Duty of Care / Key Points prior to commencing instruction at any insured venue

- The instructor or event organiser will carry out the appropriate Risk Assessment as to the suitability of that venue for the relevant activity, if necessary in the company of the Circuit Operators.
- As professional instructors you are required to be familiar with the vehicles involved and the venue. If you are not comfortable with any aspect including vehicle condition, venue, weather conditions etc you should talk to the event organiser to amend/remedy, otherwise consider whether it is safe to continue.
- Insurance cover provided by ARDS does NOT extend to include any damage to the vehicles being used during instruction. It is the responsibility of the vehicle owner/event organiser to arrange "On Track" Accidental Damage cover as required.

ARDS Insurance Cover

Please refer to the Personal Accident and Public Liability Schedules which summarise the benefits applicable under the Personal Accident Insurance policy and the cover applicable under the Public Liability Insurance policy.

Full copies of the Policy Schedules and wordings are available on the website.

It is very important to note that the Operative Times when insurance cover applies under both these policies is restricted to "whilst carrying out instructing duties" as summarised in ARDS Business Description shown on page 1 of this document.

Should a member undertake activities which are not instructing duties, whether doing so for his own benefit or business, or on behalf of somebody else (including working for another individual person, partnership, firm or company), this Insurance does not provide cover. Information may be provided to your Insurance Broker/Insurers directly to arrange a more bespoke insurance policy tailored to your own individual requirements.
