### PROFILE

I am a highly skilled test & development driver, with over 5 years of experience working for a major global tyre brand. I am also a well regarded and successful racing driver, with race wins and championship success across Europe since 2007.

### RECENT EXPERIENCE

#### TEST & DEVELOPMENT DRIVER

Goodyear / Cooper Tire & Rubber Company Europe Ltd. | June 2017 - Present

#### *Key Responsibilities*

- Planning and conducting tests for Summer, Winter, All-Season & UHP tyres in the UK, Sweden, Finland, France, Spain and USA.
- Preparing and setting up data analysis equipment (including Racelogic VBox, Kistler etc)
- Driving to an extremely high standard, consistently and safely in order to generate accurate, representative lap times and subjective assessments.
- Providing detailed feedback on all areas of tyre performance in test types including wet, dry, snow & ice handling & braking.
- Collating and analysing test data & presenting it to the engineering team promptly and concisely.
- Developing OE spec UHP tyres for Morgan & TVR as the sole project test driver.
- Managing allocated testing budget including vehicle maintenance, track bookings & expenses.
- Ensuring consistency of product development across different markets through driver & feedback alignment initiatives.
- Assisting technicians with tyre changing and other mechanical work during tests when required.

#### *Experience Gained*

In this role, I have worked as an integral part of a highly motivated test team, with a particular focus on rapid technology developments and improving products in an efficient way.

More specifically I have gained vast experience of working with the industry standard testing equipment such as VBox and associated software, as well as the layout, rules and regulations of various test facilities around Europe such as IDIADA, Papenburg, Mireval & MIRA.

I have demonstrated my ability to produce work to the high standards required by the automotive industry, with fast and consistent driving, coupled with accurate and detailed handling analysis. I also have a completely accident free test driving record.
